GRAYLING TEAM HAS HARD LUCK

LOSES GAME TO BOYNE CITY AT GAYLORD FAIR.

Grayling base ball team was off form last Thursday, when they were defeated by Boyne City at the Gaylord fair. Their last game previous to that was played two weeks before, and during the time intervening no practice had been had.

Laurant on the mound for the home team, tossed hard to win, but was given very unsteady support. Of the seven scores made by Boyne City, only one was an earned run, the others made on errors. Grayling surely had an off day, infielders displaying some of the raggedest playing of the season. They had nine errors against them, six of which were made in the first three innings, when Boyne City made three of their points.

Clark for Boyne City pitched fine ball, he striking out 14 men and allowing but eight hits, three of which were made by Doroh, three by W. Laurant, one by Miles and one by Nelson. Grayling had several chances to score but could not come thru with hits when it meant runs. Grayling registered five stolen bases and Boyne City one.

It was a disappointed bunch of fans who returned to Grayling that night after the game.

Following is the score:
Grayling 0 1 0 0 0 5 3 2 3 8 9
Boyne City 0 2 1 1 0 0 2 1 0 7 10 1
Batteries for Grayling, Laurant and Johnson; for Boyne City, Clark and Wilson.

Sunday the team again met defeat when Manager Brenner booked a game with the Lewiston team, with the Grayling battery out of town. The score was 5 to 1.

Battery for Grayling was W. Laurant and Reynolds; for Lewiston Weaver and Husted.

Grayling as played 21 games and lost five so far this season, and have been up against some of the fastest teams in this part of the state, from Saginaw to Cheboygan. At times they had a little hard luck in having players disabled, and during some

games were handicapped for players. The Grayling team boasts of all home boys, something that very few towns that have winning ball teams can boast of.

Cheboygan this season carries three Detroit men, Boyne City likewise carries men from Ann Arbor and other parts of the state. Laurant, pitcher who has played in 20 of the games, a couple of times having played in the outfield when not pitching was born in Grayling. Some of the players are in demand in some of the league teams to help them win the pennant of their league. Not as good financial support as would be accorded has been given the team.

ZALSMAN CALLS ON COUNTY TO ORGANIZE TB. WORK.

Victories already achieved in the struggle with tuberculosis in Michigan and work still to be done in stamping out the disease will be presented to the people of Crawford county by Theodore J. Werle, executive secretary of the Michigan Tuberculosis Association, at a special meeting at Grayling High school auditorium, at 8:00 p. m., Wednesday, Sept. 20. The meeting is called by Philip G. Zalsman, long the outstanding figure in tuberculosis work in Crawford county, to consider the needs of county and state work against the disease, and to organize a county tuberculosis society. For several years Mr. Zalsman has successfully conducted single-handed the Christmas tuberculosis seal sale in the county. The work of the state and national Tuberculosis Association are financed entirely by these sales conducted throughout the country.

Mr. Werle will address his Crawford county audience Wednesday from a twelve years experience as a tuberculosis worker in Wisconsin and Michigan. Rural health campaigning, education work, and a close study of health legislation have given him an unusual equipment as a practical sociologist and health worker. Since his election to the secretaryship of the Michigan Association last January he has made an intensive study of Michigan health problems. Mr. Zalsman urges a representative attendance from Grayling, and Crawford county Wednesday night. Civic and community organizations throughout the county will find the occasion of particular interest.

Townsend Plurality Is About 30,000 in State

HOT CONTEST FOR SHERIFF WON BY BOBENMOYER.

The primary election contest last Tuesday was made exciting by large number of candidates in the fields for Governor, U. S. Senator and sheriff. Each of these three offices had an unusual number of candidates. For State Senator the choice was between Judge Karcher of Rose City, and John C. Schmidt of Reed City. The vote

Kelley who started out to defeat Townsend came nearly being last on the list. Emery made an exceptionally good showing considering that he was a new man in politics and also that he had had no legislative experience whatsoever.

Bobenmoyer Nominated Sheriff. For several days prior to the primaries it appeared, judging by what people were saying about the candidates, that the contest would be close between Jess E. Bobenmoyer and William H. Cody. Each felt confident of winning. Cody proved strongest in the country districts and had a majority over Bobenmoyer in every township and tied with Homer G. Benedict in the latter's home township, Beaver Creek. Frederic gave

is so close in the district that neither is assured of election. The Free Press says that Schmidt is in the lead.

Governor Groesbeck had no trouble to defeat Lick Fletcher of Bay City. The latter made a wirwind campaign wherein he made direct charges of waste and extravagance against Gov. Groesbeck. Matters wherein money may be saved to the taxpayers are always interesting but in this

Cody a good majority, but it was not enough to overcome the lead Bobenmoyer received in Grayling where the latter had a majority over him of 64. There is no doubt but that at the women's votes elected Mr. Bobenmoyer. Also Mr. Cody made a remarkable record as sheriff of the county during the two years he occupied that office. Mr. Bobenmoyer's statement that he would enforce the prohibition laws gave the latter a pull with the voters wanting to knock out the bootleggers. Further, Mr. Bobenmoyer promised several persons that he would not select his undersheriff and deputies from among those who are now serving in such capacity. It appeared that the people wanted a decided change.

This ended the contests on the Republican ticket.

The Democrat Primary.

case it would appear that the voters had little confidence in Mr. Fletcher's statements.

The big fight was for U. S. senator. Charles E. Townsend was easy victor over Herbert E. Baker, Patrick Kelly and John G. Emery. Senator Townsend led his nearest contestant by nearly 30,000 votes in the state. Baker, endorsed by labor publications, received quite the solid vote of the railroad men of Grayling. Pat/k

FREDERIC LAD IS BURNED TO DEATH

4 YEAR OLD SON OF ED. WALSH PERISHED WHEN HOME BURNED.

Russell Walsh, 4 year old son of Mr. and Mrs. Ed. Walsh of Frederic burned to death when their home burned down Tuesday morning.

The building was in the old boarding house that was in use during the days the Walsh State mill was in operation there. Fire was discovered upstairs and had such a start that there was no chance to put it out. The little lad had been dressed and just finished his breakfast when the fire broke out. Neighbors began carrying out furniture and had everything out of the house before the little fellow was missed and it is believed that he had entered the house while people were carrying out the goods. Nobody had seen him in the building and it is presumed that he had gone into a downstairs closet and there was overcome and finally was burned to death.

The entire building was consumed and was so hot that it was several hours before searchers could get into the debris. The body was found by Wm. H. Cody of Grayling. The charred trunk of the little body was all that was left.

It was a terrible tragedy and a serious shock to the parents. It was hard for them to believe that their little son, who just a few hours before had been so well and happy among them, had now passed out of this life. It was a sad day for the Walshs. If sympathy of friends and neighbors is of any help to them in bearing the burden of sorrow, then they have it in abundance.

NURSES GRADUATE FROM HOSPITAL

COMPLETE THREE YEARS OF TRAINING UNDER COMPETENT INSTRUCTION.

Another red letter day in the history of Mercy Hospital Training school occurred Wednesday evening when two more young ladies were turned out finished and competent nurses. Miss Mary Helen Flynn and Miss Edith M. Wellington were the two lucky young ladies.

A special program had been prepared for commencement exercises. These were held at the school auditorium, the stage being most tastefully decorated in the chosen colors of the class green and gold. Vases of flowers adorned the pedestals and tables, and their motto "Character is the best diploma" was arranged above the stage. M. A. Bates presided over the program, which was as follows:

Overture.....Orchestra
Public Health and the Nurse.....Prof. B. E. Smith
Musical Solo.....Mr. F. L. Anstett
Address to Nurses.....Rev. Fr. Bosler
Orchestra.
Vocal solo.....Mrs. Roy Miles
Presentation of diplomas and class pins by Dr. C. R. Keyport.
Orchestra

Each of the speakers had something to tell of the benefits and necessities of a hospital and of the responsibility of those who enter the profession of nursing. Some very interesting and splendid things were told by each.

A reception was held in honor of the young lady graduates. In the receiving line were Mr. Bates, Fr. Bosler, Dr. Keyport, Prof. Smith, Miss Flynn, Miss Wellington, and several student nurses from the hospital.

At the close of the formal ceremonies the guests were treated to delicious refreshments of ice cream and cake. These were served in the gymnasium of the school. Dancing followed the evening's entertainment and was enjoyed by many.

The large attendance at the exercises indicate the high esteem in which the hospital is held in our community, and of the good wishes of the community toward the graduates who at this time were awarded diplomas of graduation.

AMERICA. By F. A. Perry.

America is an IDEAL, a GOAL, a STANDARD.
America was an ideal when the Pilgrim Fathers landed on these shores.
America was an ideal when the Declaration of Independence was signed by representatives of the colonists.
America was an ideal when the Constitution of the United States was drafted and adopted by the Fathers of our country.
America was an ideal when Abraham Lincoln saved the nation from dissolution.
America is an ideal today, though often threatened and defamed by its enemies.
And every day finds a fuller and better realization of the American ideal.
What then is the great American ideal?
It is:
The promotion of the common good. Obedience to the established laws. Belief in the sovereign will of the majority.
Insistence upon a square deal and a fair fight.
Active participation of every citizen in politics.
Dignity of honest toil and full reward for labor performance.
The liberal education of every child.
The opportunity to success for everyone who will try.

CRAWFORD COUNTY HAS FINE DISPLAY.

Among the interesting displays being shown at the Northeastern Michigan fair this week is one of the county exhibit shown in the horticulture department by the residents of Crawford county. The exhibit, neat and clean in its appearance, has attracted the attention of many people both from the city and rural districts and has caused much comment about the grounds.

The display has been brought here and shown through the efforts of the board of supervisors for the northern county and the Crawford county agricultural agent. It consists of grains and grasses, thrashed grains, apples, fruits, vegetables and other farm produce.

Accompanying the display are many large photographs showing typical agriculture pursuits, methods of farming advantageously; types of farm lands, and other rural scenes which go to make the display one of the neatest and most attractive at this year's fair.

The Crawford county display will be taken from here to the Michigan State fair which opens at Detroit today. From there it will probably be brought to the Saginaw county fair which opens shortly after the close of the state fair. However, negotiations are being carried on through Michigan Development bureau in which officials of the northern county have been asked to place the exhibit in a large show case at the Michigan Central terminal at Detroit, alongside the display now on exhibit there by the development bureau. Local development bureau officers are anxious that the exhibit go to Detroit permanently and be placed in such a prominent place in order that persons from all over the country may view it and realize the splendid opportunity for farm production in northeastern Michigan.

WORTH TALKING ABOUT. By F. A. Perry.

Radicals of all sorts, who are today over-running America, seem to think that they have a cause worth while, so they speak, print, and scatter broadcast their messages of revolution. They work and give freely of time and money to promote class consciousness, and to stir up industrial strife.

Why then are the rest of us so quiet? Why not talk America awhile? Is it not worth talking about? Our glorious history—our righteous laws—our educational opportunities—our unbounded charities—our increasing wealth—our happy homes. What with unnumbered blessings and privileges within reach of all, have we not something worth talking about?

UNCLE SAM TO BUY REAL ESTATE IN GRAYLING

POSTMASTER GENERAL PROPOSES GOVERNMENT BUY OR BUILD NEW POSTOFFICE.

PRESIDENT HARDING APPROVES PLAN.

Government Times of Paying Rent and Aims to Save \$500,000,000 in Next Ten Years by Adopting Plan Nationally.

(Special to *Avalanche*.)
By Robert Fuller.

Washington, D. C. Sept. 13. Uncle Sam is going to invest in Grayling real estate, as soon as the plan of Postmaster General Work is authorized by Congress. It is proposed that the government buy or build its own post office.

President Harding has approved the plan. It is national in scope and when put into operation will save the government \$500,000,000 in ten years.

Tired Paying Rent.

Postmaster General Work in his letter to President Harding explained that the department now pays an annual rental for buildings which house all of our post offices, totaling more than \$12,000,000. These figures have been growing at a tremendous rate recently as leases expired and owners demanded and obtained substantial increases.

It was also pointed out that at shameful speculation on the part of those who try to prey on the government will be abolished for all time.

The Government can borrow money at 4 per cent to buy or build post offices, which will be tax free, says Work. Whereas, when leased, the government pays a rental high enough to permit the lessor to borrow money at 7 to 10 per cent and still profit.

Business is Booming.

5,836 of Uncle Sam's post offices are in leased quarters. Only 1,200 are in homes owned by the government.

The parcel post and other adjustments have resulted in earnings which have more than doubled in the last ten years and are constantly growing.

Administration leaders in Congress favor the plan and Treasury officials have expressed the opinion that it is essential to economical management of the postal system.

Michigan Happenings

Construction work now under way on buildings at state institutions is not to be stopped by the injunction granted Lansing taxpayers in the Ingham county circuit court. Judge Colingwood, by whom the restraining order was issued, said the order did not contemplate interruption of work now under way, but was issued to restrain the state administrative board and disbursing officers of the state from incurring further obligations in connection with such work pending the hearing on the petition for an injunction.

The entire military aspect of Camp Custer was changed again when the last of the regular army troops left for regular winter posts. Company A, second infantry, with quartermaster and medical detachments will be the only force remaining at camp during the winter, as a guard to all the government property stored there. Brigadier General George V. H. Moore, commanding general during the training period, left for Fort Sheridan, where he will assume command.

Planned under his overturned car for four hours, John Robinson, of Rochester, was losing consciousness when rescued by a passing motorist. Robinson, alone, was driving into the city when his car went into a ditch two miles south of Rochester about 1 a. m. The weight of the car held him fast in the soft mud at the bottom of the ditch. A farmer, driving to the city about 5 o'clock, heard moans at the roadside and, investigating, found Robinson.

Mrs. Lora Lavery and her stepdaughter, Beulah Hanks, of Orangeville, strangely disappeared following the suicide of the first woman's husband, John Lavery. Barry county officials were unable to learn where the two women had gone following their release from the hospital at Hastings. Both were injured severely by Lavery, who attacked them with a hammer before he shot himself, but they recovered quickly at the hospital.

Recovered from nearly fatal burns received in a boiler explosion in which a fellow workman was killed, Nurski, 34, waded into the Thornapple river for a swim and drowned in sight of his wife and half a hundred other picnickers. Nurski who recently returned to work after his narrow escape in the explosion, had not taken a swim in years. The body was recovered by clam diggers.

John Griffin, of Dowagiac, is the first man ever arrested in Kalamazoo county, under the statute which forbids driving away from an accident without stopping to offer aid. Griffin's car is said to have struck and severely injured occupants of another machine, a few miles south of the city. Griffin asserts he did not know that he had hit another car.

Kalamazoo is enjoying the lowest priced milk of any city in this section of the United States. As a result of a fight between producers and distributors, milk has been lowered from 11 to 7 cents a quart by the Dairy-men's Milk company, a firm controlled by producers. The 7-cent price is 3 cents lower than pre-war prices.

F. A. Neuman, Detroit man, who pleaded guilty at Pontiac to a charge of assault and battery on two girls in a Lake Orion club, as a sequel of raids at that resort, has taken an appeal to circuit court from his conviction. He drew a 60-day term in jail without a fine. He was released on bail, pending trial.

Upper peninsula lumber men are planning an appeal to the state for aid in fighting a devastating worm that is threatening the life of all the birch growth in this section. According to forestry experts the plague will ruin hundreds of thousands of dollars' worth of standing timber this year.

Harry Dale, 17 years old; Dean Livingston, 17 years old, and a 15-year-old boy, are under arrest at Port Huron, charged with several automobile thefts. The boys have been stealing machines for joy rides for several weeks, later abandoning the autos, it is alleged.

After being unconscious in her home in Battle Creek for three days following a stroke of paralysis, Miss Mary N. Hayward, 38 years old, was discovered by her sister and taken to a local sanitarium.

Sixty members of the Warner family of Albion attended its seventy-seventh annual reunion at Montcalm Lake. Mrs. Mandana Warner, 95, was the oldest person present.

Ada Powers, 8 years old, daughter of Mr. and Mrs. John Powers, Dowagiac, slipped from the railing of Cass avenue bridge, fell into Dowagiac river and was drowned. A brother Nelson, 4 years old, and the girl were hanging over the railing when the tot lost her balance.

Jesse George won the woman's club prize of \$10 and the title as champion ragweed puller in Traverse City. In an effort to eliminate ragweed the Woman's Club enlisted school children to pull the plants. The champion turned in 63,600 of the weeds.

Dr. Robert L. Harkness, of Houghton, was chosen commander of the Department of Michigan, American Legion, at the fourth annual convention at Ann Arbor, for the fiscal year ending October 1, 1923. Ironwood was chosen for the 1923 convention.

"I have been a thief for 55 years, but I am going to quit now. I am retiring from a life that does not pay, and I am going back to live with my sister in Chicago until I die." Thus spoke Thomas Coleman, alias "Doc" McHagen, Edward Casey, etc., who had been picked up with two others by Lansing police. The veteran pickpocket is said to be about 70 years of age. He admitted he spent 25 years of his life in prisons. The trio had just arrived in Lansing and registered at a local hotel when they were taken into custody.

Mrs. Claude Curtis, of Sturgis, appointed by the State Highway Department to count traffic on State Trunk Line M-23, reports that on this highway, which follows the old Indian trail from Fort Dearborn, now Chicago, to Detroit, she counted 1,026 vehicles in one day. Mrs. Curtis' mother-in-law, who is a Sturgis pioneer, recalls that the biggest day's traffic in her time was when Chief Blackhawk and 200 braves went over this route on their way to Fort Malden, in Canada, to receive their annuities.

The annual financial statement of the Ford Motor Co., filed with the secretary of state at Lansing shows total assets of \$409,820,132.90. These include cash on hand and in the bank, \$145,985,669.31; plant, land, improvements, buildings, fixtures and structures, \$1,626,015.03; machinery, tools and equipment, \$39,531,079.34; and good will \$20,517,956.82. The statement is of June 30, 1922.

The women of Muskegon are going to serve on juries or know the reason why. Although women have been eligible for jury duty for several years, no women have been called in Muskegon city or county. Miss Ruth Thompson, probate register and prominent clubwoman, is leading the campaign, which just now is directed against Police Judge J. E. Turner.

Resignations have removed three more officers from Flint's police force. The men quitting are: Albert Schaefer, lieutenant of detectives, who is taking a more lucrative position at Port Huron; Detective William Brittain, who goes with the General Motors corporation; and John Chisholm, chief mechanic, who will enter the garage business.

Detroit carried off the honors at the Biennial Michigan convention at Grand Rapids of the Choral Societies affiliated with the American Polish National alliance, when the male choir of that city took the first cup in the singing contest. The Bay City women's choir was second and the Grand Rapids choir, the Lutnia Halka, was third.

Nine business places and two dwellings were destroyed by fire at Bergland, Mich., northeast of Ironwood, the fire wiping out all but two dwellings in one block. A dry goods store, barber shop, two pool halls, a physician's office, restaurant, drug store and hotel burned. The fire started at 3 a. m. and the bucket brigade fought it until 6.

Swift Lathers, publisher of The Mears News, was nearly killed when riding on a truck to Pentwater. When near Pentwater Lake the truck went too close to the edge of the bank and sunk into the mud and tipped over pinning Lathers beneath it. He was rushed to the Ludington hospital in an unconscious condition.

Dodge Brothers, Inc., have announced that work will begin in Detroit, immediately on an eight-story addition that will cost in the neighborhood of \$1,500,000. The new building will contain approximately 500,000 square feet. It will be 400 feet long and will be used entirely for manufacturing operations.

A bomb hurled into the yards of the Ann Arbor railroad at Owosso, endangered lives of workmen. It tore a hole in the yards, falling a few feet clear of the turn table and some distance away from the shops. Two engines passed over the place where the bomb fell, a few minutes before the explosion.

Mrs. Louise H. Campbell, state director of home demonstration agents since December, 1920, was appointed acting dean of home economics of Michigan Agricultural College, by the State Board of Agriculture. Mrs. Campbell succeeds Miss Mary Sweetney, resigned.

Jacob Olsen, contractor, of Muskegon, broke out of jail there; went to church, put so much spirit in the singing that he was arrested for being drunk and disorderly. Olsen promised to pay for repairs to the village jail and leave town.

SUPPLY HOMES FIRST, PROPOSAL

GOVERNMENT WANTS OPERATORS TO GIVE PRIORITY TO DOMESTIC FUEL.

PENNSYLVANIA FIELDS OPERATE

Household Need Expected to Receive Entire Weekly Output of 1,500,000 Tons of Anthracite.

Washington—Anthracite coal shortage may be prevented for households this winter, if anthracite operators carry out the government proposal that existing contracts be ignored unless the coal delivered is to be used in domestic heating. This and other questions dealing with measures to prevent suffering in homes of the people were taken up at a conference in Philadelphia between government officials and anthracite operators.

On behalf of the government, Secretary Hoover and Commissioner Allison, of the interstate commerce commission, insisted upon utmost cooperation by operators to facilitate smooth distribution of coal soon to be produced by resumption of operations in the Pennsylvania fields. Government officials are determined to use the powers of the interstate commerce commission, through priorities and embargoes, to assure plenty of coal for household use.

Officials estimated that the need of households will far exceed 1,500,000 tons a week, the average output of the anthracite.

AIR CIRCUS FLYERS LOSE LIVES

30,000 Attending Fair See Four Fall to Death.

Rutland, Vt.—For a crowd of 30,000 people assembled at the Rutland fair grounds, a "flying circus" staged with aeroplanes and balloons was turned into tragedy, four participants meeting death. An aeroplane crashed from a height of 2,000 feet, carrying to their deaths the pilot, mechanic and passenger. A few hours later an aeroplane leaping from a balloon 1,500 feet in the air was killed when its parachute failed to open.

The dead: Lieutenant Belvin W. Maynard, known throughout the country as "The Flying Parson," pilot of the aeroplane; Lieutenant L. R. Wood, of Ticonderoga, N. Y., passenger with Maynard; Mechanic Charles Monette, of Plattsburg, N. Y., and Henry A. (Daredevil) Smith, of Boston, aeronaut.

JURY RETURNS 35 INDICTMENTS

Indicted Men Face Murder Charge For Taking Part in Riot.

Marion, Ill.—Four true bills, in which 35 residents of Williamson county are indicted on the charge of murder, were returned in Judge D. T. Hartwell's court by the special grand jury. Most of the men are miners. One is a Negro deputy sheriff. The county clerk at once began to prepare capias and deputy sheriffs started out into the surrounding district to bring in prisoners.

These indictments cover the series of crimes that occurred between miners and strikebreakers on the morning of June 22 on the road between the Southern Illinois Coal company strip mine and Herrin.

BANDITS UNDER DOUBLE GUARD

Toledo Authorities Take No Chances With Slaying of Policeman.

Toledo, O.—Extra guards have been placed at the county jail here to frustrate any attempt to release Jim Roberts and Frank Amadio, alleged bandits, who confessed to killing Patrolman Dick Martin and to wounding Patrolman George Basch in a gun fight. Chief Jennings fears that friends will attempt to free the bandits.

"Joe," the dead member of the alleged bandit trio, remains unidentified.

A similar message was sent to Augusto Cochrane de Azevedo, the Brazilian ambassador here, by Acting Secretary of State Phillips.

Minnows Conquer Mosquitoes.

New York—The mosquito eating fish has been enlisted in the war on the pesky little insect, according to a Rockefeller Foundation announcement. Where other efforts to exterminate the disease-breeding mosquitoes proved futile, two species of minnows were turned loose in small ponds and stagnant waters and conquered the mosquitoes by devouring the eggs and larvae of the insects. Elimination of yellow fever in Peru is credited to the minnows.

Scenario Writer Is Arrested.

New York—A four months' search for Maurice Heller by the police of this city ended when he was arrested at the offices of a motion picture producing concern. Heller, who is described as a scenario writer, was wanted as an alleged fugitive from justice from the state of Maryland. He was indicted in Baltimore in October last on a charge of conspiring to defraud Harry Noonan, a motion picture exhibitor of that city, out of \$7,097.50, in connection with the alleged purchase of film rights.

LAFOLLETTE'S VICTORY

HAILED AS NEW EPOCH

ROBERT M. LAFOLLETTE

Madison, Wis.—Hundreds of telegrams poured in on Senator LaFollette from all sections of the country, from statesmen, bankers, farmers and labor organizations, following his sweeping victory over William A. Gaedfeldt for the republican nomination for United States senator. Senator LaFollette's majority was more than 200,000 and is regarded as the most remarkable victory in American politics.

The endorsement of Senator LaFollette by Wisconsin voters may make possible the formation of a Progressive "bloc" in the senate.

SCREAMS WAKE AMNESIA VICTIM

Shell Shocked Veteran Recovers As Woman Falls to Death.

Detroit—Herbert Newman, Windsor mail carrier, has returned safely to his home there, after having wandered about the country for a week, a victim of amnesia. The shock of witnessing a violent death restored his memory, he says.

Newman had disappeared from home a week before. He had been groping in a mental fog, unable to remember his name or any of the details of his personal history.

He was standing on the brink of Prospect Point at Niagara Falls when Mrs. Agatha Miller, of Cleveland, plunged 200 feet over the falls in a motor car. Her death screams cleared the haze in his mind and he was able to tell Niagara police his name and address. Newman was shell shocked fighting in France.

DETROITER HEADS STATE JUDGES

Judge Dingeman Elected by Association of Michigan Judges.

Lansing—Circuit Judge Harry J. Dingeman, Detroit, was selected presiding judge of the Association of Michigan Judges at the organization's annual meeting here last week.

Contempt of law and authority was blamed by President Charles E. White for "increasing crime. The Vetoed act is held in contempt by all classes of people, especially so by respected members of society, he said.

"It makes all attempts to enforce respect for law and order a mockery," contended the speaker.

U. S. MARINES LAND AT SMYRNA

Will Protect Americans If Turks and Greeks Start to Fight.

Paris—United States marines have been landed at Smyrna from an American man-of-war, according to a report received here.

The Americans were said to have seized and fortified a theater. The American commander explained that the landing had been made to protect American lives and interests in view of the possibility of fighting between the Turks and Greeks in and around the city.

ANTI-PROFITEERING BILL PASSED

Senate Votes 40 to 7 On Measure to Check Coal Gouging.

Washington—With only seven negative votes recorded, the senate last week passed the first of the emergency coal bills, a measure designed to check profiteering and control the distribution of coal. The vote was 40 to 7, and the measure was amended to send to conference for adjustment of differences with the house.

Urge Completion of Projects.

Cincinnati—Completion of river projects now under way in the Ohio will be urged at the next meeting of the Ohio Valley Improvement Association, which is to be held at Louisville, Ky., on Oct. 8 and 4. W. C. Calkins, secretary of the Cincinnati Chamber of Commerce and of the Improvement Association, has sent out a call to all towns and cities in the Ohio Valley urging them to have representatives at the meeting who will support an active programme.

Ritual Transmitted By Wireline.

Liverpool—There have been many stories of the strange uses to which wireless communication has been put on the high seas but the Cunard liner Carmania brought in a new one on her arrival here from New York. While off the Irish coast the liner's operator picked up a message asking that the ritual for burial at sea be sent in full. The strange request came from Canadian Trooper, whose captain found he had no prayer book when confronted with the necessity of burying one of the crewmen at sea.

Wm. S. Hart, Jr., Is Born.

Los Angeles—A son was born to Mrs. William S. Hart, wife of the motion picture actor. It was announced that the boy would be named William Hart, Jr. Mr. and Mrs. Hart separated several months ago and Mrs. Hart has been living at the home of her mother in Santa Monica.

Scouts Aid Safety Work.

New York—Twenty thousand Boy Scouts and 2,000 scout masters will aid the safety institute of America in the campaign to prevent public accidents which will be inaugurated with a safety week in October. It was announced by Elbert H. Gary, chairman of the institute's public safety committee.

Swiss Aviator Wins Alps Flight.

Berne—Lieutenant Mueller, of the Swiss army, won the contest in the flight around the Alps, an event in the international aviation meet at Zurich. He covered the distance in eight hours through heavy clouds, which made the flying difficult over the Alpine heights. The majority of the other contestants withdrew.

14,000 Textile Strikers Return.

Lawrence, Mass.—The Lawrence textile strike, covering six months, officially ended September 5, when 14,000 returned to work. The mills, several of which closed due to poor business and those affected by the strike, threw open their gates and work began in all departments. The operatives returned under their old wage scale.

Breaks Arm Pitching Ball.

Anderson, S. C.—J. Ralph Ballantine, pitching an amateur game between Broadway and Eureka communities, broke his arm by merely throwing the ball. Attending physicians say the muscular effort in throwing the ball with great force caused a twist in the bone, causing a split-like break in his arm from the elbow to the shoulder.

McAdoo Answers Call of Wild.

Santa Barbara, Calif.—William G. McAdoo has heard the call of the wilderness. With a party of friends the former secretary of the treasury is en route for Eastern Idaho. After camping along the Snake river, the party will board a specially built raft and dare death in a 200-mile ride down the treacherous river. Two Indians will guide the party.

Senator Inherits 15 Squares.

St. Paul—Fifteen Indian squaws, 10 buckets of war paint, several bags of feathers and other state regalia were willed to State Senator Patrick H. McGarry, of Walker, by Chief Echmoo-Omi-Mom, of the Leech Lake reservation, in northern Minnesota, who died recently. Senator McGarry, who had befriended the chief, said he was undecided as to what he would do with the bequests.

Motor-Driven Liners Are Next.

New York—Motor-driven ocean liners are likely to be the next development in trans-oceanic travel, according to Captain J. P. Holst, who arrived on the Frederick VII. Two lines of motor freighters started as experiments are great successes, he said. Ships run by motors have no funnels, he explained. Plans are under way now to build an ocean liner equipped with a Diesel engine generating 15,000 horsepower.

Fox Terrier Digs Up Evidence.

Silver Springs, Md.—His pet for terrier, "Sport," faithful companion of years is responsible for George Wright, Four Corners' farmer, being held under \$500 bond on charge of illegal possession of whisky. Deputy sheriffs, after searching Wright's home for liquor and finding none, were about to leave when "Sport" began to bark at the same time digging in a potato patch. The dog uncovered 12 quarts of liquor.

Women Shoppers On Grand Spree.

New York—Ten women charged with disorderly conduct and intoxication were arraigned before Magistrate McGeehan, in Yorkville court. Police records showed that all had previously been arrested on similar charges one or more times. All the prisoners were arrested during the flight in St. Gabriel's park. When arraigned the women carried loaves of bread, packages of meat and groceries, having gone on a spree while shopping for supper.

Stockings Found in Bobbed Hair.

Youngstown, O.—Advocates of the "bobbed hair" movement have claimed among other things, that it does away with insularity covered "rats" and other articles. But—not so! During a jitney accident here a young woman, with bobbed hair, was hurt. While in a faint she was carried into a nearby residence. Holding the smelling salts, the attending physician felt a hard substance at the back of her head. He removed a pair of stockings.

Salome Dancer Shocks Churchmen.

New Britain, Conn.—The Methodist church Epworth League convention in Plainville was thrown into confusion when, as a part of the social entertainment, a Salome dance was staged by the delegates from Hartford. Rev. John L. Davis of New Britain, in charge of the program, arose and ordered the entertainment stopped. When the excitement subsided it was found that Salome was George J. Edwards, an amateur Julian Belling, who had been induced to give the impromptu entertainment.

USE MORE REGISTERED SIRE

Notable Progress Is Reported in Movement to Replace Scrub Bulls With Purebreds.

(Prepared by the United States Department of Agriculture.) There is every reason to believe that the replacement of scrub and grade sires by purebreds is on the increase. Reports received by the United States Department of Agriculture from county agents in various parts of the country show that the "Better Sires—Better Stock" movement is having a noticeable effect. A recent statement by M. G. Lewis, county agent of Rockbridge county, Va., is typical of a large number.

"The purebred bull movement," says Mr. Lewis, "is progressing rapidly. Since January 1, 18 farmers have disposed of grade or scrub bulls and are using registered bulls instead. On the other hand, there are no less than 50 men in the county who still persist in holding out against the progress and development of the live stock interests of the county by keeping inferior grade or scrub bulls. I have a list of 50 owners of such bulls. Some of these men have grades that are fairly good individuals, while others have scrubs that are the worst kind of a disgrace to the community and to the county.

"The cost of a good registered bull is so small now that it is a mystery why any farmer will keep anything

else. Many records have been kept during the last few years to prove out the actual value of a purebred bull in dollars and cents."

Some of these actual figures were obtained recently by the Department of Agriculture through an inquiry sent out to more than 500 farmers throughout the United States. These men gave it as their opinion that in all kinds of farm stock purebreds have an earning power more than 40 per cent better than common stock. It is noteworthy that in the case of dairy cattle, whose productive power can be easily measured, purebreds were considered to be 47.8 per cent better than common cows. The lowest percentage given for any kind of stock was 30.8 per cent.

FLIES DECREASE MILK YIELD

Spraying Furnishes Means of Relieving Cow For the Time and Saves Temper of Milker.

The irritation of cows caused by flies not only lessens the milk produced, but, due to the restlessness of the cows, is a frequent cause of inefficient milking.

The fly spray furnishes a means of relieving the cow for a time at least and of saving the temper of the milker. The following fly repellent mixture is recommended:

Four and one-half quarts of coal tar dip, 4½ quarts of fish oil, 3 quarts of whale oil, 1½ quarts of oil of tar and ¼ ounce of oil of pennyroyal. Dissolve 3 pounds of laundry soap in water, add the ingredients of the spray and bring the whole up to 30 gallons with lukewarm water.

This quantity will spray 40 cows twice a day for 10 days. The spray should be applied in the morning after milking and in the afternoon when the cows are in the barn for silage or green feed.

RELIABLE SOURCE OF PROFIT

Dairy Cow Is More Dependable Than Beef Steer Because Her Products Are Steady.

The dairy cow is a more dependable source of profit than the beef steer, because her products are but slightly affected by market fluctuations and because she is a continuous source of revenue, for the cream or milk checks come in at frequent intervals. Then, too, there is an increasing demand for dairy products and for grade and purebred dairy cattle.

Most Profitable Cow.

One good cow is more profitable than several poor ones.

Sterilize Milk Utensils.

For the proper sterilization of dairy utensils an abundance of steam or hot water is needed. Immerse them in boiling water for two minutes, or put them in a tight closet and thoroughly sterilize with steam for thirty minutes.

Way to Improve Dairy.

Replacing the low-producing cows with better ones and later with purebreds is only one of the ways in which a dairy improvement association helps a community.

Milk Without Noise.

Milk quietly, quickly, cleanly and thoroughly. Cows do not like unnecessary noise or delay. Commence milking at exactly the same hour every morning and evening, and milk the cows in the same order.

Prepare for Next Winter.

Fix up the barn and milk house, put the building in good shape for the convenient handling of cows next winter. Build a manure shed if you haven't one. Place your dairy herd on advanced registry test.

Popular Styles in Coats;

Shows Paris Styles in Hats

ONLY a walking dictionary could remember all the new trade names given to coatings this fall—for every variation in weave is christened before it is launched. More or less lustrous pile-fabrics, "suede-finished" or "soft-faced" cloths make up the story of the mode in the dressier coats, and these descriptive terms tell one far more than the new names do.

Straightline and bloused coats appear to be about equally popular—

slender women showing a preference for the bloused style. It is all a

matter of becomingness, which is the

Here is a group of newly-imported hats from which some of the most important features of the styles may be gathered. They are all of velvet, which is one item to be noted. Velvet hats dominate the displays, but there are many others of hatters' plush and suede-finished cloths. There are many black hats and the favorite colors are brown, bronze, wood, the pleasant tones, almond and mignonette green, ocean and porcelain blue, deep purple, mauve, platinum gray and beige. Bottle green and what are known as "sunset shades" are to be

most important item to be considered in selecting a coat. Linings are soft and often of two or three plain colors combined. They add much to the interest and finish of wraps, which are so often thrown back off the shoulders, making the lining a background for the costume. Quiet colors are liked for them.

Among the good points of the pile-fabrics is their fitness for decorative purposes. Bands, panels or emplacements, cut on the bias or crosswise of the material, make handsome embellishments. An example appears in the coat at the left of the two pictured, in which cross-panels of the material are set on the skirt and form deep half-cuffs on the shaped sleeves, which are bordered with fox

included and bright red is represented among hats for younger women. Shapes look simpler than they are; they are graceful in the hand, but one must see them on the head to fully appreciate their subtle art of flattery. There are many wide-brimmed hats among them, many spired tricornes and some picturesque pokes. The cart wheel has devotees, but smaller hats are universally admired by American women.

The group lends off with a round hat having a brim that laps at the right side, becoming a double brim. The crown is quite soft and the brim far from rigid. Its sole trimming is an immense bow of rich ribbon. This is the paramount feature in trimmings—bows and more bows of ribbon,

fur. A long choker collar of the furs, ends in exaggerated tassels and very large, handsome buttons, on the front and cuffs, match the rest of the garment in class.

Glossy, black wolf fur, in a huge collar and as a border for the ample sleeves, distinguishes the smart straight-line coat at the right. Its girdle is made of material like that in the coat and is run through handsome metal links, fastening at the front with clasps.

Twice, at least, in each year, every woman longs to be a millionaire. It is when the shops bring out new millinery at their initial openings in the spring and fall and there are so many fluttering hats on display, all at one time. (One longs to be reckless and buy hats to suit moods, no matter how many or how high priced.)

Jewelry to Match. Jewelry that blends with the color of the headgear is a particular pleasing fancy and one well worth following. Beads and other neck ornaments may be had in practically any color, and so many charming things are available that every hat or frock may have its very own jewelry.

There is a tendency to avoid elaborately trimmed frocks these days,

mere touches of embroidery being used ordinarily, or self-fabric trimming in some form. A little frock for early fall seen recently, had a trimming formed of round sections of the silk crepe on which the frock was made mounted on buckram so that they held their shape and set together to form insets in the skirt, sleeves and waist.

Whole System Is Benefited by Tanlac

Thousands of frail, nervous people and convalescents everywhere have testified to the remarkable power of Tanlac in bringing back their health, strength and working efficiency. It seems to quickly invigorate the constitution, and is a powerful foe of weakness. Mrs. George G. Owen, of Salem, Oregon, says:

"My nerves were upset and the little I ate wasn't enough to keep up my strength, so I lost weight and became so weak it seemed I had no energy at all. Tanlac restored my health completely, and I gained twelve pounds in weight."

There is not a single portion of the body that is not benefited by the helpful action of Tanlac. It enables the stomach to turn food into healthy blood, bone and muscle, purifies the system and helps you back to normal weight. Get a bottle today at any good druggist.—Advertisement.

CRAMPS, PAINS AND BACKACHE

St. Louis Woman Relieved by Lydia E. Pinkham's Vegetable Compound

St. Louis, Mo.—"I was bothered with cramps and pains every month and had backache and had to go to bed as I could not work. My mother and my whole family always took Lydia E. Pinkham's Vegetable Compound for such troubles and they induced me to try it and it has helped me very much. I don't have cramps any more, and I can do my housework all through the month. I recommend your Vegetable Compound to my friends for female troubles."—Mrs. Della Scott, 1412 Salisbury Street, St. Louis, Mo.

Just think for a moment. Lydia E. Pinkham's Vegetable Compound has been in use for nearly fifty years. It is prepared from medicinal plants, by the utmost pharmaceutical skill, and superior methods. The ingredients thus combined in the Compound correct the conditions which cause such annoying symptoms as had been troubling Mrs. Scholz. The Vegetable Compound exercises a restorative influence of the most desirable character, correcting the trouble in a gentle but efficient manner. This is noted, by the disappearance, one after another, of the disagreeable symptoms.

He has made many friends in Grayling during his stay, and all of whom will be pleased to hear of his success.

Don't get all "heat up" with wrath when "passed up" in the dust by the spluttering jitney, fellow pedestrian, because you will be several more along in a minute if the reports are correct. Henry Ford is turning out 4,000 new ones every day. And from the same report we learn that Henry needs the money, as his net profits for June were only \$20,000,000, and that his bank account is getting down close to overdraft, showing on July 1, the meagre cash balance of only \$200,000,000.

If the weather permits the Sunday School of the Michigan Memorial church will hold their post-poned picnic next Saturday, September 16, from 2:30 to 5:30 at the tourist camping grounds. Each family or child is to bring a basket lunch. Something special in games and fun. Mothers are invited to come with the little ones especially. Miss Ruth was voted the most popular girl at Central High in her senior year in a school popularity contest. After she graduated from high school she attended Sophie Newcomb College at New Orleans. She is talented in art and has won several prizes at the Tri-State fair on her water colors and pastel sketches of scenes in and around Memphis. She is in charge of the statistical department of Proctor & Gamble Distributing Co., in the Goodwyn Institute, the only woman in charge of statistics for this company in the entire U. S.

A letter received this morning from Rev. C. E. Doty, who is in attendance at the Methodist conference that is being held in Pontiac this week, says that he has been appointed to the M. E. church at Caro, Mich., for the next year. Mr. Doty served four years as pastor of the Michigan Memorial church in this city and during his pastorate, here has seen the church attendance grow from a few persons to good sized congregations. It was an uphill fight but he won easily and gracefully. Those who have been privileged to hear Rev. Doty Sunday after Sunday for the last four years cannot help but be inspired by the masterful sermons he has preached. He has been modern in his methods and applied his Christian teachings thru present day channels, coupling his themes with present day topics, thus making them interesting and effective. Mr. Doty is a Christian gentleman and lives the kind of life he advocates to others—there is not the first appearance of sham about him and thus the good things he does in the community are not marred by lack of confidence on the part of the people. Outside of the church he has been a most agreeable friend and citizen and is willingly lent his strong influence in matters of public interest. As a toastmaster he is a past master and is able to apply the art in a happy and dignified manner. He is well liked by all who know him. Mrs. Doty is a charming piano player and is also well liked in the community. The people of Caro are to be congratulated upon having Rev. and Mrs. Doty and their sons Alfred and Richard come into their community.

Mr. and Mrs. Brownwell and family Otho Duffee and Miss Lovely motored to Kalkaska Sunday.

NO SUBSTITUTE OFFERED.

Sav what you will about druggists offering something "just as good" because it pays a better profit, the fact still stands that ninety nine out of a hundred druggists recommend Chamberlain's Colic and Diarrhoea Remedy when the best medicine for diarrhoea is asked for, and do so because they know from what their customers say of it, that it can be depended upon.

THE IDEAL PURGATIVE.

As a purgative, Chamberlain's Tablets are the exact thing required. Strong enough for the most robust and mild enough for children. They cause an agreeable movement of the bowels without any of that terrible griping. They are easy and pleasant to take and agreeable in effect.

TEACHER of PIANO

ANNOUNCEMENT.

Mr. Cromwell M. Fuller is a musician of fine attainments and a Piano Teacher of high standing. He has been a very serious and conscientious student for many years, and follows the most progressive and modern methods of Piano instruction. Thirty-five years of teaching experience, combined with a sympathetic discernment of his pupils' individual requirements, recommend him as an instructor of the highest merit.

He has made a study of Piano for a number of years, having taken a thorough course at Ypsilanti, Michigan, and the Normal Course for Piano Teachers by William H. Sherwood and a complete course in Harmony and Composition through the University Extension Conservatory, Chicago.

As a Piano Teacher, Mr. Fuller merits the patronage of those seeking a true musical education, as well as the ability to play in an acceptable manner. Those who study with him and desire to enter a Conservatory later will have the satisfaction of knowing that they will receive full credit for their work. There will be no bad habits to unlearn—every position of the arms, hands and fingers will be correct—every essential will be approved. Like many of the best music teachers throughout the country, Mr. Fuller has thoroughly investigated and adopted the graded progressive Course of Piano Lessons prepared by America's foremost pianist, William H. Sherwood.

Interested students and parents are cordially invited to consult Mr. Fuller about lessons and individual requirements. Appointments may be made by applying to Ed. Clark, Bandmaster or Olaf Sorenson & Sons.

JOIN THE PEOPLES PARTY.

We believe that the two old parties have outlived their usefulness and that they are not in sympathy with the great majority of the voters of this country. That present economic conditions and the welfare of the nation demands the organization of a third party.

The following plan of organization has been adopted:

A mass meeting will be held at every county seat at which delegates will be chosen to a states convention.

At each state convention a member of a Committee of Forty-eight will be elected. This Committee will meet at Chicago for the purpose of adopting a platform and taking entire charge of this campaign.

If you are in sympathy with this movement we earnestly request that you call a meeting of your neighbors. Elect a Chairman and forward to this office names and addresses of those present together with a copy of any resolution that is passed, also the time and place of your next meeting.

This will be a party that cannot appeal to the vested interests of Wall Street for support. We are asking for volunteers who will contribute now or pledge at least 25 cents a month to help defray the expense of this campaign.

Address all correspondence to J. H. Chandler, National Organizer, 500 Fifth Avenue, New York City.

GREEN OLIVE PEPPER CORN

Corn sautéed with green peppers and olives is a delicious dish that may be prepared in a few minutes. Once tried it will be repeated frequently each year when corn on the cob is obtainable. Here is an excellent recipe:

Ingredients: Six ears sweet corn (uncooked); one-fourth teaspoon salt; one-eighth teaspoon paprika; one green sweet pepper; one cup chopped Spanish green olives; two tablespoons butter.

Cut corn from cob. Remove seeds and white fibre from the sweet pepper. Cut the pepper into fine strips and cook five minutes in the butter. Add the corn and cook for ten to fifteen minutes, stirring to prevent burning. Add the salt, paprika and green olives. Serve.

Making 20 Years of Racing Serve Car Owners Today

IN the early days of automobile contests, Barney Oldfield—out to win every race—studied tires. His consistent success led other drivers to ask for tires constructed to his specifications.

Twenty years of road and track victories—with a steady and increasing demand for tires as he built them—convinced Barney Oldfield that these speed tests pointed the way to a better tire for everyday use.

The enthusiastic reception of Oldfield Cords by the public proved he was right. Scores of the most prominent dealers in the country—and many thousands of car owners, experienced in the use of tires—bear witness by their decided preference that Oldfield is doing a bigger and better job of tire making.

This volume, handled in an effective way in every phase of manufac-

ture and distribution, has resulted in price quotations far below what you'd expect on tires known to be better built and more enduring.

Practically every important race event for three years has been won on Oldfields. The Wichita Test Run in which an entire set of Oldfield Cords covered 34,526 miles on rough roads proves the mettle of the Most Trustworthy Tires Built in everyday driving.

The Master Driver and Tire Builder has given the public a new standard of tire wear and tire cost—a true economy that every car owner should know about.

Your Oldfield dealer has these facts—talk to him.

Seven Points of Supremacy

1. The sole leather used in "FOOT-FITTERS" is of the best quality obtainable. Even the insoles are cut from standard outside leather.
2. "FOOT-FITTERS" are the only shoes in the world having full length ramps and sole leather box toes. This feature prevents ripping at the tip and makes a smooth outer and inner surface.
3. The insoles are shoulder channelled so that they fit tightly against the outside. There is no need or room for a cork filler. A small piece of duck is used to prevent squeaking.
4. The Calfein inside counter pocket is of great value, for it saves the wear on the socks. There is no rough surface to rub against.
5. "FOOT-FITTER" heels are 1/4 inch longer than generally used. They give additional support to the arch and increase the comfort and wear of the shoe.
6. The vamp is reinforced with 8-oz. duck. This absorbs the moisture from the foot, thus keeps the vamp from cracking and holds the shoe in shape.
7. Edmonds "FOOT-FITTER" shoes are called "FOOT-FITTERS" because they fit the foot snugly. Built on combination lasts they support the foot like a doctor's bandage. "FOOT-FITTERS" give Comfort, Service and Appearance.

These Shoes
are worthy of their name

and we have all sizes and widths in stock and in the three last---broad toe, medium toe and English.

FARM BUREAU NOTES

R. D. BAILEY
County Agricultural Agent

LIMESTONE LEGUMES LIVESTOCK

MEAN
PROFITS IN
FARMING

What the Farm Bureau Has Done For You.

Not the least of the Farm Bureau's legislative services was its great help in enacting the agricultural statistics bill, providing for collection of timely and accurate crop information by supervisors at the time of making the annual spring assessment. These reports will be made public as quickly as possible by the Federal crop estimator at Lansing and will be of value to Michigan farmers.

The Bureau rendered valuable service by spotting freak legislation that would have been a nuisance to agriculture if passed. The Bureau collected evidence against these bills and they either died in committee or were amended so as to remove their harmful features. This work was fully as important as the enactment of beneficial legislation.

Farmers Got Needed Help From Congress.

Farmers got results in the last session of Congress. In their interests the American Farm Bureau Federation interested itself in some thirty bills of great importance to farmers. Many of these are now law; others were defeated as unfavorable to farmers' interests says the Michigan State Farm Bureau, which assisted the national Farm Bureau organization in presenting the farmer point of view to Congress.

Congress passed at the last session more agricultural legislation than any other congress in the history of the nation, said the Farm Bureau. The law-makers required not a little help and considerable prodding. The American Farm Bureau furnished both and got satisfactory results, largely through its active support of the Farm Bloc.

Laws Bureau Supported.

The Farm Bureau supported bills which are now law follow:

The Agricultural Credits Act extending life of the War Finance Corporation, making possible the extension of many farm loans.

Bill legalizing co-operative marketing. Removed legal uncertainties hampering farmers' co-operative marketing.

Bill regulating packers and stockyards. Producers' interests are now protected.

Federal Far-to-Markets road program in place of automobile boulevard system.

Provided funds to carry on tuberculosis eradication work.

Kept U. S. Department of Agriculture appropriation at efficiency point.

Passed Federal highway appropriation bill as desired by farm interests.

Prominent among the measures opposed by the Farm Bureau as hostile to farmers' best interests was the proposed sales tax. It was defeated outside of Congress.

Better Farming—Better Business—Better Living.

Rev. Father Edwin V. O'Hara, LL.D., director of the Rural Life Bureau of the National Catholic Welfare Council, writes as follows to President J. R. Howard of the American Farm Bureau Federation:

"Since the establishment of the Farm Bureau I have been deeply interested in its program and its accomplishments. I am writing now on

the tenth anniversary of its establishment to express sincere appreciation of the magnificent work which the Farm Bureau is doing for the American farmer, and consequently for our country at large.

"Two features of its work are of inestimable importance, and are being carried out by the American Farm Bureau to an extent and with a thoroughness which must win universal commendation. In the first place, the Farm Bureau has effectively promoted the diffusion of scientific methods of agriculture, which is the indispensable basis of better farming. It is it has been able to accomplish through its affiliations with the State Agricultural Colleges and the Federal Department of Agriculture. Secondly, the Farm Bureau has rightly insisted that agricultural co-operative enterprises are the key to financial success in the business of farming. The American Farm Bureau, then, is laying the foundation among American farmers, first, for better farming; second, for better business, and these two combined with the social, educational and religious forces, will make for the most assured future of the farmer. It is ultimately directed, namely, better living.

"The Catholic Rural Life Bureau finds itself in entire accord with the program of the American Farm Bureau Federation, and it presses the same with equal vigor. The Catholic Rural Life Bureau, then, is laying the foundation among American farmers, first, for better farming; second, for better business, and these two combined with the social, educational and religious forces, will make for the most assured future of the farmer. It is ultimately directed, namely, better living.

CONSTITUTION DAY.

By F. A. Perry.

On the 17th day of September, 1787, a band of statesmen, who were assembled in Philadelphia, after having spent many long weary days in study and discussion, signed their names to the document which their arduous labors had produced, namely, the Constitution of the United States of America.

That day was the beginning of days, not only for the people of the new nation, which was then emerging from chaos and uncertainty to a state of order and stability, but it was likewise a new day for the people of the whole world as well; a new day for oppressed humanity; a new day for suppressed ambitions. It was the dawning day of unhampered achievement; of unlimited progress.

That day which ushered in a new era should be observed with appropriate ceremonies and made the occasion of renewed interest in the fundamentals of free government.

The spirit and purpose of the Constitution, which was then emerging from chaos and uncertainty to a state of order and stability, but it was likewise a new day for the people of the whole world as well; a new day for oppressed humanity; a new day for suppressed ambitions. It was the dawning day of unhampered achievement; of unlimited progress.

That day which ushered in a new era should be observed with appropriate ceremonies and made the occasion of renewed interest in the fundamentals of free government.

"We, THE PEOPLE of the United States, in order to form a more perfect union, establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this Constitution of the United States of America."

There is no subject which can engage the human mind of anything like the importance of the subject of government, for under a wrong form of government, social life deteriorates, industry is stagnant, education is limited, religion is hampered, and the masses are oppressed, and in need, while on the other hand, who have the right influence of our great Constitution, we are constantly improving our standards of living, industry has made phenomenal strides, educational opportunities are universal, religion enjoys freedom and protection, while to our shores have come vast millions of the oppressed of earth, who have the other nations of the world gradually falling into line, and governments everywhere are becoming more liberal after the American pattern.

This year, the Coalition Committee for the State of Michigan is planning a state-wide observance of the Anniversary of the Signing of the Constitution, and since it occurs on Sunday, many clergymen have signified their intention to preach upon the subject. Teachers have also expressed a willingness to observe the Friday preceding the anniversary with appropriate exercises, while farm and club organizations are preparing special programs, and already several industries and business houses have agreed to call attention to it in their bulletins, and to display the national colors over their places of business.

There is nothing that would be more effective in overcoming Radicalism in America than would a renewed appreciation of the fundamentals of our government, and it is hoped that this state-wide effort will stimulate interest and cause many to study the Constitution.

THE KEY THAT UNLOCKS THE DOOR TO LONG LIVING.

The men of eighty-five and ninety years of age are not to be rotund, well fed, but thin, spare men, who live on a slender diet. Be as careful as he with, however, a man past middle age will occasionally eat too much or of some article of food not suited to his constitution, causing indigestion or constipation and will need a dose of Chamberlain's Tablets to move his bowels and invigorate his stomach. When this is done, there is no reason why the average man should not live to a ripe old age.

MAINE ELECTION GOES TO G. O. P.

SENATOR HALE AND GOVERNOR BAXTER RE-ELECTED BY FAIR MARGINS.

MARYLAND NOMINATES FRANCE

Senator's Lead Reported Safe; Wm. C. Bruce Leads in Democratic Race for Senator.

Portland, Me. — Senator Frederick Hale, Republican, and Governor Percival P. Baxter, Republican, were elected in Maine in Monday's election.

Returns Tuesday morning from 536 election precincts out of 635 in the state, representing 476 cities and towns out of 520, gave for senator: Hale (Republican), 98,883; Curtis (Democrat), 73,178. For governor: Baxter (Republican), 102,159; Patten (Democrat), 74,068.

Partial returns indicated the re-election of the four Republican representatives from Maine. Returns from 38 out of 92 precincts in the first district gave: Carroll L. Beedy (Republican), 7,604; Louis A. Donahue (Democrat), 4,784.

In the second district 113 out of 146 precincts gave: Wallace White, Jr. (Republican), 17,458; Bertrand G. McIntire (Democrat), 13,178.

In the third district 160 out of 224 precincts gave: John E. Nelson (Republican), 19,323; Leon O. Tebbetts (Democrat), 13,893.

In the fourth district 130 out of 173 precincts gave: Ira G. Hersey (Republican), 15,144; James W. Sewall (Democrat), 9,443.

Baltimore—United States Senator Joseph I. France was renominated by the Republicans in Monday's primary. Early returns showed that he had carried 10 of the 27 voting units in the state including Baltimore city, and had an apparently safe margin in several others which would give him considerably more than the necessary 67 convention delegates.

In the three-cornered Democratic contest William C. Bruce appeared assured of the nomination, although the preferential voting delayed the counting of the ballots and caused confusion in some districts. Representative T. Alan Goldsborough, Democrat, the only member of the present congressional delegation whose nomination was contested, won a decisive victory.

TURN IN LABOR TIDE IS NOTED

American Federation of Labor Pleased With Coal Settlement.

Atlantic City, N. J.—After reviewing the major strikes, in which union members of the American Federation of Labor have engaged during the past year, President Samuel Gompers and the executive council of the federation, in annual conference here, Monday sent a message to John L. Lewis, president of the United Mine Workers of America, declaring that "the advantageous settlement of the miners' strike marks the turning of the tide that will usher in the fulfillment of labor's hope and aspirations."

WORD "OBEY" OMITTED IN RITUAL

Episcopalian Bishops Also Go On Record for Other Changes.

Portland, Ore.—The house of bishops of the general convention of the Protestant Episcopal church in session here have gone on record in favor of omitting the word "obey" in the marriage ritual, but have decided on retaining the words "with my worldly goods, I thee endow." This latter phrase was recommended by committee of revision for omission.

One of the proposed additions to the marriage ceremony favors the having of children and of training them up in health of body.

MANY LIVES LOST IN WRECK

Over 80 Drown When Steamer Hammonia Foundered.

Southampton.—There was considerable loss of life when the German steamer Hammonia foundered off Vigo Sept. 9.

Confirmation of this was obtained Monday when the British steamer Kinfauns Castle docked here with 385 of the rescued passengers on board.

Captain Day, commander of the Kinfauns Castle, said the loss of life possibly would reach 80. Others on board estimated the dead at 150.

MOVE TO IMPEACH DAUGHERTY

Minnesota Representative Brings Charges Against Attorney-General.

Washington.—A resolution of impeachment was laid before the house Monday by Representative Oscar E. Keller, of Minnesota, Republican, and was referred to the committee on judiciary upon motion of republican floor leader, Frank W. Mondell. At the same time, the Minnesotaan read into the record a series of seven charges which he hopes will be made the basis for articles of impeachment, on the part of the house as a whole.

MORTGAGE SALE.

Whereas, default has been made in the payment of the money secured by a mortgage dated the 26th day of September, A. D. 1917, executed by Alva E. Hittle, and Stella M. Hittle, his wife, of the City of Elwood, State of Indiana, to George Burke, of the County of Crawford, State of Michigan, which said mortgage was recorded in the office of the register of deeds for the County of Crawford, and State of Michigan, in Liber H of Mortgages on page 289, on the 8th day of November, A. D. 1917, at eight o'clock a. m.

And whereas the amount claimed to be due on said mortgage at the date of this notice is the sum of one hundred eighty-three and 75-100 (\$183.75) dollars of principal and interest, and the further sum of fifteen dollars as an attorney fee stipulated for in said mortgage, and which is the whole amount claimed to be unpaid on said mortgage and no suit or proceeding having been instituted at law or in equity to recover the debt now remaining secured by said mortgage or any part thereof, whereby the power of sale contained in said mortgage has become operative.

Now therefore, notice is hereby given that by virtue of said power of sale in such case made and provided, said mortgage will be foreclosed by a sale of the premises therein described at public auction to the highest bidder at the front door of the court house in the Village of Grayling, in said County of Crawford, on the 7th day of October, A. D. 1922 at ten o'clock in the forenoon of said day, which said premises are described as follows, to wit:

All that certain piece or parcel of land situate and being in the Township of Beaver Creek, County of Crawford, and State of Michigan, described as the northwest quarter of the northwest quarter of section twenty-nine, township twenty-five north of range three west, except the portions sold off the north side of said land for highway purposes. Dated July 7, 1922. George Burke, Mortgagee.

At a session of said court, held at the probate office in the Village of Grayling, in said county, on the first day of September A. D. 1922.

Present: Hon. George Sorenson, Judge of Probate.

In the matter of the estate of Jennie S. Freeland, deceased.

Mrs. Nellie I. Feldhauser having filed her petition, praying that an instrument filed in said court be admitted to Probate as the last will and testament of said deceased and that administration and settlement of said estate be granted to Frank M. Freeland or some other suitable person.

It is ordered, that the second day of October, A. D. 1922, at ten o'clock in the forenoon, at said probate office is hereby appointed for hearing said petition.

It is further ordered, that public notice thereof be given by publication of a copy hereof for three successive weeks previous to said day of hearing in the Crawford Avalanche, a newspaper printed and circulated in said county.

George Sorenson, Judge of Probate.
